

ASSOCIATION, COMMERCIAL & RESIDENTIAL

PRODUCTS CATALOG 2021

In the 20 years of working in the steel and metal fabrication industry, we have acquired a large amount of field experience in a variety of projects of all shapes and sizes. We enjoy putting our minds together to offer high quality and unique custom products that adhere to the highest standards.

OVER 20 YEARS IN THE MARKET

Exactly one month and six days after the grand opening something terrible happened that shocked the whole world - September 11 - This is when we faced our first economical challenge. Even with an unstable economy CBR Fabricators expanded from its original building to a new building of 7200 square feet. Soon after we finalized on our building, we faced our second economic difficulty as the United States endured the recession. As we expanded we witnessed our neighboring businesses close their doors. During this time period nearly 70% of the American companies went out of business. Throughout these challenges we recognized that God had a hedge of protection around us. Since then, CBR has consistently grown every year; expanding our areas of expertise and increasing our projects. We are a company that performs commercial and residential projects; Bonded, Insured, and licensed in structural metal and steel. We are located in South Florida, and we are willing to go the extra mile wherever and whenever necessary.

WHAT YOU DRAW...
**WE
CAN
DO!**
